

# PRE-CONTINUING EDUCATION CONFERENCE COURSES

*For more detailed descriptions of courses including Pre-Continuing Education Courses starting Tuesday, February 4<sup>th</sup>, [please begin registration on the 2025 Continuing Education site.](#)*

Leadership I is available for both Linc Service and TEGG Franchisees: Wednesday and Thursday	
<b>Leadership I</b>	Guaranteed to inspire you to improve leadership skills that drive achievement, this training uses the proven Sitkin-Lind Domains of Leadership Model and has been customized for our franchises. <b>There is no fee to participate, but the course is limited to the first 18 applicants.</b>
Pre-Continuing Education Conference Courses for TEGG Technicians and Saturday-Only IRT Exam Option	
<b>Transformer Fundamentals and Maintenance</b>	Learn the fundamentals of maintenance tests on unit substation and power transformers, including inspections and preventive maintenance tests of dry-type and liquid-immersed transformer. Fee for Five-Day Course, Tuesday-Saturday: \$2,299 per participant.
<b>Automatic Transfer Switches: Commissioning and Maintenance</b>	Including hands-on work with Eaton technical trainers, students will cover commissioning and maintenance activities on Eaton automatic transfer switches and controllers currently in production. The fundamentals covered also apply to other manufacturers equipment. Fee for Five-Day Course, Tuesday-Saturday: \$2,299 per participant.
<b>NICET Level Two Prep</b>	Prepare NICET Level I Technicians for the Level II Exam with this course on visual and mechanical inspections of electrical equipment, including basic electrical test, identifying hazards, selecting PPE, and more. Class includes hands-on activities and practice test. Fee for Three-Day Course, Tuesday-Thursday: \$1,799 per participant.
<b>NICET Level Three Prep</b>	Prepare NICET Level I Technicians for the Level II Exam with this course on visual and mechanical inspections of electrical equipment, including basic electrical test, identifying hazards, selecting PPE, and more. Class includes hands-on activities and practice test. Fee for Three-Day Course, Tuesday-Thursday: \$1,799 per participant.
<b>Infrared Thermography Category/Level II Certification</b>	Based on both the third-party PCN Certification using ISO standards and the Employer-Based Certification using ASNT/ANSI (SNT-TC-1A), this course includes four days of instruction and the proctored certification exam on Saturday. IR Category/Level I certification is required; however, exemptions may be possible with permission. Fee for Four-Day Course and Exam, Tuesday-Saturday: \$2,350 per participant.
<b>Test Only: Infrared Thermography Category/Level I or II Exam</b>	Anyone who has passed our recent Infrared Thermography Category I and II classes based on the ISO/PCN program is eligible to take or re-take the respective exam during our proctored Saturday testing at 2025 Continuing Education. The \$350 fee covers the exam. A review session will be conducted from 8-10 a.m., with the exam from 10 a.m. to 12 noon. Reach out to FranchiseSupport@abm.com for eligibility questions.
<b>Airborne Ultrasonic Level I Certification</b>	For Airborne Ultrasonic certification per ASNT Recommended Practice SNT-TC-1A, this course designed by pioneers of the technology offers 24 hours of instruction and a written examination in theory, principles, and practices of Airborne Ultrasound technology. Fee for Three-Day Course and Exam, Tuesday-Thursday: \$1,399 per participant.
